Cure For Mumps.

"Mumps is an unpleasant topic, perhaps, but it is also an unpleasant fact, and as it is a disease which is particularly apt to attack pot dogs, and is very difficult to cure, a suggestion as to its treatment may not come amiss. There are many so-called cures which are more or less efficacious and are always expensive," said a New England woman and a lover of dogs. "The best remedy in my experience was suggested to me by an old plantation doctor, who, by some queer chance, had settled, or rather squatted, in our neighborhood, and who covered his little patch of ground with corn and melons which he peddled about in the season. 'Sakes, Miss Lucy,' he said to me one day, 'that setter of yours is just eaten up with mumps. It's a real pity, for he's a nice dog, and I'll tell you what I'll cure him. You just take two parts of lard and one part of kerosene and rub it into him with a corn-cob—rub it in good and hard—and do it twice a week, and between times give him a dip in salt water. It'll cure him in no time.'

"And so it did. I never saw anything so rapid in its effects. As the old negro said, 'It killed all de parasites,' and in less than a month every trace of the mumps had vanished, the hair coming in thick and glossy in the places left bare by the disease. As it is a remedy always at hand and very inexpensive, it is certainly worth knowing. If salt water is not accessible, a good washing with tar soap would be as well, and a little flower of sulphur in the drinking water will facilitate the cure."—New York Tribune.

Rapid Photographic Printing.

A novel method of rapid photographic printing has been introduced by Mr. Erice Green of London. Mainly, his plan is to use negatives which have been taken upon a flexible, translucent material, such as a thin sheet of collodion, placing this sheet upon a supporting glass cylinder, so that the sheet bearing the negative surrounds the cylinder, and within the latter are one or more lenses. Over or under the cylinder, and in contact with the collodion sheet, a band of sensitized material from a roll is carried, and so guided that there is always a part, say several inches, of its length in contact with the collodion sheet, and this part of the band is maintained flat. Rotary motion is given to the cylinder and forward motion to the band surface, so that the band, with the result that every section of the band equal to the circumference of the cylinder is exposed upon it by means of the light a positive impression from the negative on the cylinder, the same picture being repeated on every successive section of the band. On leaving the cylinder, the band is carried to and through a tank and developer bath, and is then guided to print upon both sides of the band. It goes from the last cylinder to a second and similar cylinder, where it is printed in like manner upon its second side, and then passes on to the fixing and developing bath.—New York Times.

Effect of Open Air on Life.

Mr. Sargent's splendidly illustrated and published some round the globe, showing the influence of climate on the mind and exercise in lessening the rate of mortality and that of old age, and the rate of mortality among the elderly following them.

The greater longevity of persons living in the country appears to be almost wholly due to the fact that the greater portion of time is spent out of doors. Though occasionally exposed to all sorts of inclement weather, these ruralists attain a much greater average longevity than any class of professional men, tradesmen, shopkeepers or mechanics who spend the greater portion of their days working in a confined atmosphere.

It is even shown by Mr. Sargent's splendid array of statistics that the city scavengers and street men, who are daily exposed to all kinds of foul odors, are longer lived than the tradesmen and professional people, owing, no doubt, to the vital influence of the open air in which they spend most of their time.—St. Louis Republic.

People Who Enjoy Funerals.

A well known Irishman who is now dead was more than likely to be seen at the funeral of any of his acquaintances, or even at that of any prominent Irishman, though he might not know the deceased personally.

Walking to his place of business one morning, he met a funeral procession, which, by its length, proclaimed itself to be that of a fellow countryman. As he waited for the carriages to creep by some delay stopped his slow progress, and seeing that the cab opposite to him had but one passenger he stepped in.

Soon after the carriage had again started he said to his companion: "Whose funeral is this, sir?"

"The man looked up in surprise. "Sure I don't know," he replied. "O'if'm only out for a roide just like yourself."—Pearson's Weekly.

SILVER PARTY PLATFORM.

Adopted at Elko, Nevada, September 8, 1896.

The Silver party of Nevada, in State Convention assembled, does affirm its allegiance to those great essential principles of justice and liberty upon which our institutions are founded, viz: Freedom of speech; freedom of the press; freedom of conscience, the preservation of personal rights; the equality of all citizens before the law, and the faithful observance of constitutional limitations.

We pledge our earnest and active support to William J. Bryan for President, and to Arthur Sewall for Vice President of the United States.

We heartily endorse the platform of the National Silver party adopted at St. Louis, July 25th, 1896.

We declare the restoration of silver to the place accorded it as a money metal by the founders of the Government, to be the paramount issue.

We demand the remonetization of silver at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be full legal tender equally with gold for all debts, public and private, and we favor such legislation as will prevent for the future the demonetization of any kind of legal tender money by private contract.

We are opposed to the issuing of Government interest bearing bonds in time of peace, and we demand that the Government officials, the servants of the people, shall use the option given them by law to redeem all obligations in gold or silver coin.

SILVER PARTY PLATFORM.

Adopted at Elko, Nevada, September 8, 1896.

The Silver party of Nevada, in State Convention assembled, does affirm its allegiance to those great essential principles of justice and liberty upon which our institutions are founded, viz: Freedom of speech; freedom of the press; freedom of conscience, the preservation of personal rights; the equality of all citizens before the law, and the faithful observance of constitutional limitations.

We pledge our earnest and active support to William J. Bryan for President, and to Arthur Sewall for Vice President of the United States.

We heartily endorse the platform of the National Silver party adopted at St. Louis, July 25th, 1896.

We declare the restoration of silver to the place accorded it as a money metal by the founders of the Government, to be the paramount issue.

We demand the remonetization of silver at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be full legal tender equally with gold for all debts, public and private, and we favor such legislation as will prevent for the future the demonetization of any kind of legal tender money by private contract.

We are opposed to the issuing of Government interest bearing bonds in time of peace, and we demand that the Government officials, the servants of the people, shall use the option given them by law to redeem all obligations in gold or silver coin.

We demand the abolition of National banks, and the issuance of all money direct by the Government.

We demand the collection of the indebtedness of the Pacific Railway Companies to the United States, as it matures, without extension of time or change of terms or conditions.

We demand Government ownership of telegraph lines and railroads.

We demand the enforcement of the Interstate Commerce Act.

We demand legislation excluding foreign paupers, criminals, and contract labor.

We pledge the fostering care of the State to our public schools and the State University, of which we are justly proud, and favor such legislation as will increase their efficiency.

We cordially invite the co-operation of all true silver men of all parties in the ensuing election, and hereby pledge the electoral vote of Nevada to Thomas E. Watson, should it appear that the election for the Vice Presidency be between him and Garret A. Hobart, the gold trust nominee.

We denounce the hypocrisy and double-dealing of the Republican party of Nevada, which, on May 10, 1895, declared for free coinage at the ratio of 16 to 1, independent of any other nation, as the only means of restoring prosperity to the country, and on June 18, 1896, declared that the restoration of silver would create a panic and demoralize the business of the country.

We approve the bill passed at the last session of the United States Senate, now pending in the House of Representatives, relative to contempt in Federal courts, and providing for trials by jury in certain cases of contempt.

We are in favor of arbitration of the differences between employers engaged in Inter-state commerce and their employees and recommend such legislation as is necessary to carry out this principle.

Recognizing the just claims of union soldiers, we heartily endorse the rule of the present Commissioner of Pensions that no name shall be arbitrarily dropped from the pension roll, and that the fact of enlistment and service should be deemed conclusive evidence against disease and disability before enlistment.

WATERWAYS AND RAILROADS.

The Federal Government should care for and improve the Mississippi River and other great water lines of the country, and improve and operate them so as to secure for the Interior States easy and cheap transportation to tide water. When any waterway or trunk line railway is of sufficient importance to demand aid of the Government, such aid should be extended upon a definite plan of continuous work until permanent improvement is secured.

VOLUME OF MONEY.

The volume of money in circulation should be especially increased and always be fully adequate for the requirements of business. It should be increased to an amount that will enable us to build our railroads, open our mines and develop our vast resources without dependence upon the money lenders of Europe.

PUBLIC OFFICE.

A public office is a public trust. No person or party should be trusted who has once violated that trust.

ELECTIVE FRANCHISE.

We denounce the purchase and sale of the elective franchise as destructive of our liberties, and favor the strict enforcement at all future elections of the law passed at the last session of the Legislature, known as the Purity of Elections law; and recommend that all candidates for the Legislature be required by their constituents to pledge themselves against a repeal of the law or any modification that will impair its efficiency.

UNITED STATES SENATORS.

We are in favor of an amendment to the Constitution of the United States, providing for the election of United States Senators by direct vote of the people of their respective States.

UNITED STATES SENATORS AND MEMBER OF CONGRESS.

The able and efficient services of Senators Stewart and Jones and Congressman Newlands in the Congress of the United States in behalf of all interests that promote the welfare of our people are worthy of the indorsement of every patriotic citizen of the State, and we are in favor of the election of Hon. John P. Jones for United States Senator.

Resolved, That the Silver Party was organized for the purpose of securing the remonetization of silver and that we are opposed to any effort to disorganize it until silver is remonetized.

We demand the abolition of National banks, and the issuance of all money direct by the Government.

We demand the collection of the indebtedness of the Pacific Railway Companies to the United States, as it matures, without extension of time or change of terms or conditions.

We demand Government ownership of telegraph lines and railroads.

We demand the enforcement of the Interstate Commerce Act.

We demand legislation excluding foreign paupers, criminals, and contract labor.

We pledge the fostering care of the State to our public schools and the State University, of which we are justly proud, and favor such legislation as will increase their efficiency.

We cordially invite the co-operation of all true silver men of all parties in the ensuing election, and hereby pledge the electoral vote of Nevada to Thomas E. Watson, should it appear that the election for the Vice Presidency be between him and Garret A. Hobart, the gold trust nominee.

We denounce the hypocrisy and double-dealing of the Republican party of Nevada, which, on May 10, 1895, declared for free coinage at the ratio of 16 to 1, independent of any other nation, as the only means of restoring prosperity to the country, and on June 18, 1896, declared that the restoration of silver would create a panic and demoralize the business of the country.

We approve the bill passed at the last session of the United States Senate, now pending in the House of Representatives, relative to contempt in Federal courts, and providing for trials by jury in certain cases of contempt.

We are in favor of arbitration of the differences between employers engaged in Inter-state commerce and their employees and recommend such legislation as is necessary to carry out this principle.

Recognizing the just claims of union soldiers, we heartily endorse the rule of the present Commissioner of Pensions that no name shall be arbitrarily dropped from the pension roll, and that the fact of enlistment and service should be deemed conclusive evidence against disease and disability before enlistment.

## INDISPUTABLE FACTS.

The area of Nevada is 110,700 square miles or 70,848,000 acres. It has vast undeveloped resources, mineral, agricultural and grazing. Its soil is productive and its climate salubrious. Its cereals, such as wheat and barley, bring the highest market price at the seaboard, and as an alfalfa producing region it is unsurpassed. Its beef, fattened on this succulent hay, is equal to that fed on corn in the Mississippi Valley States, and its mutton from the ranges commands the highest prices. Its mineral resources are vast and varied. Gold, silver, nickel, copper, lead, antimony and iron are found in its mountains, and salt, sulphur, borax and other minerals, which have a commercial value, in its deserts, but notwithstanding all these advantages the State is not prosperous. The reason assigned for this is the appreciation of gold since the single standard was adopted, and the corresponding depreciation of all other products of the soil or the mines.

In the ten years from 1880 to 1890 the decrease in population was 16,505, according to the census of the United States. This is unprecedented in a new State, and if any other cause than the demonetization of silver has been given for it the writer has not heard of it.

Here we have a State of great resources, which are yet undeveloped, decreasing in population and taxable property under the blighting influence of the single gold standard, and our people are urged by place-hunting politicians to cast their votes to maintain that standard.

We know that the demonetization of silver has depreciated the value of all property, that it has thrown thousands out of employment, depopulated whole sections of the State, deprived the farmer of a home market, and the miner of an opportunity to earn an honest living for himself and his family, increased the burdens of debt and taxation, and yet we are asked to support the party that is responsible for this deplorable condition of affairs and that brazenly proclaims that it will continue the present financial policy until foreign nations, which are waxing fat at our expense, graciously permit us to change it.

Intelligent people know that the name of Republicanism in this campaign is being used for deceptive purposes. There is nothing in common between the Republican party of to-day in Nevada and the Republican party of 1894. Then the party declared free courage to be the paramount issue, that there can be no permanent prosperity until silver is remonetized, that the issue is non-partisan and that the United States should restore silver regardless of what foreign nations may or may not do. Now men who were candidates on that platform repudiate on the streets and on the stump the pledges which they made to the people two years ago. For the chance of a place at the public crib they throw principles to the wind and are willing to see the State decrease in population and taxable property, the mines closed and men thrown out of employment, and use all the tricks known to adroit politicians to get the unsophisticated to assist them in their nefarious schemes.

## FACTS FOR THE GOLDITES.

The Secretary of the Treasury now issues circulars which seem to be calculated to benefit the gold trust. Before the St. Louis Convention the Treasury Department issued circulars which were not colored for political purposes. One of these, treasury circular number 123, page 64, states that on the 1st day of March, 1893, the beginning of President Harrison's administration, the available cash in the treasury, exclusive of the \$100,000,000 in the gold reserve, was \$290,348,912 12; on the 1st day of March, 1893, the beginning of Cleveland's administration, the available cash in the treasury, exclusive of the \$100,000,000 gold reserve, was \$62,450,575 18. In four years under Harrison's administration, and the McKinley Tariff Act, the available cash in the treasury shrank \$167,898,340. In 1898 the receipts of the Government were \$111,341,273 in excess of the expenditures, in 1899 the excess was \$87,761,090, and in 1900 the excess was \$95,040,271. In October, 1890, the McKinley Act was in force and in 1891 the receipts were only \$27,888,541 in excess of the expenditures. In 1893 under the McKinley Act the receipts were \$2,341,874 in excess of the revenue and in the fiscal year ended June 30, 1898, three months after Harrison left the White House, there was a deficiency of \$69,803,990, with the McKinley Act still in force.

These figures, which are from official statements, show the effect of the single gold standard. The revenues of the Government were less under the McKinley Act than under the

act of 1894, because the single gold standard was in force and dear money compelled at least 60,000,000 of the people of the United States to reduce expenses.

## FREE TRADE, EH?

Our contemporary, which seems to have no fixed principles but changes to suit its party leaders, tells its readers that if Bryan is elected we will have free trade in a year. Is there a sane person in the State who for a moment believes such nonsense? The appropriations made annually by Congress average \$500,000,000. A considerable part of that immense sum must be raised at the custom houses from duties on imports, and whatever party is in power we must have a high tariff. The tariff to-day is high enough on many articles, but it is not equitably adjusted. It admits wool free, but places a high duty on woolen manufactures. In fact it protects the East and neglects the West, and its author is one of the most blatant goldbugs in the United States and one of Mr. Hanna's assistants.

## TELEGRAPHIC NOTES.

McKinley had the usual number of visitors yesterday, among them a small delegation from Northern Michigan.

Joseph A. Mitchell killed his partner, Detective Edward Hicks, in San Francisco. Mitchell says he acted in self defense.

The Merchants' Bank at Atlanta, Georgia, has closed its doors, having made an assignment for the benefit of depositors.

The Republican State Election Board of Iowa has permitted the Palmer and Buckner ticket to go on the ballot as "National Democratic."

Memorial services in honor of the Archbishop of Canterbury were held throughout England yesterday. Bells were tolled in every town.

The Turkish Government has issued orders granting safe escort to the new board to all Armenians and children whose husbands and fathers are in the United States.

During a fire at Montreal, Canada, yesterday the roofs of several buildings fell in, burying twelve firemen in the ruins, five of whom were rescued badly injured.

The Powers have sent an identical note to the Turkish Government refusing its demand to be accorded the right to search foreign vessels in Turkish waters for Armenians.

Wheat is going up in San Francisco and the most extravagant predictions are made by brokers as to future rises in California wheat. The famine in India is a feast for California wheat growers.

A large quantity of dynamite in a magazine at Dayton, Tennessee, exploded yesterday, wrecking buildings and destroying the electric light plant.

The village of Bardolph, Illinois, was burned yesterday morning.

Chairman Butler of the Populist National Committee says there are only four States in which fusion has not been arranged. These are Georgia, Florida, North Carolina and Tennessee. An adjustment will be reached in Florida and Tennessee, and Georgia will be for Bryan and Sewall or Bryan and Watson. Senator Butler classes Ohio as doubtful, Indiana safe for Bryan, and Illinois, Iowa and Michigan in the balance.

Bryan was enthusiastically received in every town in Michigan which he visited yesterday. At Watervliet Bryan quoted from the words of McKinley in 1890, "That agriculture was depressed, and without prosperity to the farmer there could not be prosperity anywhere." This was after thirty years protective tariff, which effectually disposed of the claim that the tariff is the issue of the hour. He declared the gold standard was responsible for the hard times, and if the people wanted the hard times to continue they should vote the Republican ticket.

## BUTLER'S OPINION.

What the Populist Chairman Says About Bryan's Outlook.

WASHINGTON, October 16.—Senator Butler, Chairman of the Populist National Committee, returned from Chicago to-day, expressing himself as satisfied with the outlook for Bryan. He said: "Fusion has been arranged in all the States but four, Georgia, Florida, North Carolina and Tennessee. An adjustment will be reached in Florida and Tennessee.

"Georgia will be for Bryan and Watson or Bryan and Sewall. Ohio is doubtful, and Indiana, with fusion arranged, is safe for Bryan. Illinois, Michigan and Iowa are in the balance. It is safe to assume that the chances are even in those States, that is, that at least two of the four close Middle States will go for Bryan. Kentucky is safe, and in West Virginia the chances are favoring Bryan. Maryland depends on the Republican farmers, who are expected to offset the vote of the gold standard Democrats. Considering the population there is a greater gold Democratic defection in Baltimore than in any city west of New York."

## REED RETIRED.

His Voice Given Out and His Engagements Cancelled.

FORE WAYNE, Ind., Oct. 16.—Thomas B. Reed, who spoke here last night, is confined to his room in this city with sickness, and is unable to resume his speaking tour this morning. His voice has given out, and he is unable to speak above a whisper. His engagements at Peru and other places have been cancelled. He leaves for Chicago at 7 P. M. to-day.

## Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and if the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

quires not only legal knowledge but  
mature judgment and experience. Mr.  
Julien has all of these qualifications  
and the people of Washoe county may  
be assured that the interests of the  
county will be carefully looked after  
and whatever public business comes  
under his advice and management will  
be handled with the least possible ex-  
pense to the taxpayers.

## LONG TERM COMMISSIONER

This is in reality the most important  
office as far as the taxpayers are con-  
cerned on the list of county offices.  
The existing conditions demand the  
most careful judgment in expendi-  
tures and the management of public  
affairs. A man should be familiar with  
current prices and what constitutes  
the reasonable cost for material and  
labor and the proper value received  
for the expenditure of public money.  
The position requires a firm, practical  
man who will ignore favoritism to  
individuals or districts, but will con-  
sider the welfare of the whole com-  
munity. Such a man is H. E. Beck,  
the Silver-Democratic nominee and  
with his familiarity with every portion  
of the county and public matters, he  
is especially fitted for the place. He  
is one of the earliest residents of the  
county and has spent the greater por-  
tion of his life among this people. He  
deprecates extravagance where econ-  
omy will accomplish as good results  
and insists that the people's money be  
expended as carefully as that of an in-  
dividual. Mr. Beck will urge that  
public improvements shall be sub-  
stantial and permanent and that the  
public funds shall not be paid out for  
costly temporary improvements that  
simply last a month or a year and have  
to be renewed.

Mr. Beck will favor any public im-  
provement if it can be shown to him  
that it is a public benefit and the peo-  
ple of Washoe county will find in him  
a Commissioner of good judgment and  
progressive ideas without foolish ex-  
travagance.

## FOR SHORT TERM COMMISSIONER.

The position of short term Commis-  
sioner is no less important than long  
term. It also requires a man of deci-  
sion and character. Geo. H. Frazer,  
the nominee, will make a strong col-  
league for Mr. Beck and no better selection  
could have been made. He has been a  
resident of this county for many years  
and understands its needs as well as  
anyone. He is a practical man and  
will readily see the necessity of build-  
ing or repairing a bridge or proper  
work on a road or the streets of a town.  
He thoroughly understands business  
affairs and will give the benefit of his  
experience to the taxpayers. Mr.  
Frazer is a man of perfect honor and  
in the consideration of public matters  
he will be as careful as one could wish  
and no one will have any reason to re-  
gret his nomination and election.

## FOR PUBLIC ADMINISTRATOR.

F. C. Uptake is so well known in the  
county that it seems almost useless to  
introduce him to the public. He has  
been a resident of Reno ever since it  
was a town and has always taken a  
lively interest in all affairs that tend  
to the upbuilding of the State and  
county. If elected he may be depended  
upon to conduct the affairs of his  
office carefully, honestly and economi-  
cally.

## FOR COUNTY SURVEYOR

Comes T. K. Stewart, a practical civil  
engineer and a competent man at his  
business. There are times when his  
services or advice will save much ex-  
pense to the county and no better man  
could be found for the position.

## Township Officers.

## FOR JUSTICE OF THE PEACE.

I. B. Marshall is well known in Reno  
having lived here for many years. He  
is a member of the bar and especially  
fitted for the office of Justice on ac-  
count of his long experience and legal  
knowledge. He is a cool headed and  
firm man, but with a kind heart and his  
judgment will always be governed by  
the law and evidence. Elect Judge  
Marshall as Justice of the Peace and  
the people of Reno will have no oc-  
casion to regret their choice.

## FOR CONSTABLE.

This is an office that is peculiarly  
hard to fill in a town as large as Reno  
and situated at it is on the line of the  
railroad. Thomas McGovern has just  
the qualifications for the position. He  
is brave, quick and determined and he  
would be a terror to hobos and law-  
breakers. Tom is a man of few words,  
but when he speaks he means what he  
says, and a look from him would quiet  
the most boisterous drunk without  
further argument or persuasion. He  
will make a good peace officer and the  
services he will render to the com-  
munity will be appreciated and com-  
mended.

## School Shoes.

Tassell Brothers have a large and  
fine assortment of shoes for school  
children which parents are invited to  
call and inspect as they are being sold  
at a very low rate.

## WEATHER BULLETIN.

A Disturbance of More Than Usual  
Force.

[Copyrighted by Prof. W. T. Foster.  
St. JOSEPH, Mo., October 16.—My  
last bulletin gave forecasts of the  
storm wave to cross the continent from  
19th to 23d.

The second disturbances of October  
will reach the Pacific coast about the  
23d, cross the west of Rockies country  
by close of 24th, the great central val-  
leys 25th to 27th, and the Eastern States  
the 28th.

This disturbance falls between the  
high temperature and low temperature  
storm periods where the average tem-  
perature will be rising and therefore  
the warm wave preceding it will not be  
very warm and the cool wave following  
it will not be very cool.

The warm wave of this disturbance  
will cross the west of Rockies country  
about the 23d, Great Central valleys  
the 25th, and the Eastern States the  
27th. The cool wave will cross the  
west of Rockies country about the 26th,  
Great Central valleys the 28th and the  
Eastern States the 30th.

Not as much rainfall will come with  
this as with the previous storm wave  
and what rains do fall will be farther  
north.

The temperature of the week ending  
the 24th will average very low, the coldest  
of the month, and the storms will  
be unusually severe. The cold waves  
about the 18th and 23d will be un-  
usually severe and will reach far into  
the Southern States, bringing killing  
frosts to the northern portions of the  
cotton belt.

My next bulletin will contain a gen-  
eral forecast of November weather.  
Charts will be mailed free to those  
sending a 2-cent stamp. I hope soon  
to publish these charts in the papers  
that publish my bulletins.

## SUGAR BEET FACTORY.

Probability of One Being Built at Gol-  
conda.

Louis Duterte, who owns a large  
ranch at the Golconda Hot Springs on  
the Central Pacific Railroad in Hum-  
boldt county, is one of the most enter-  
prising men in the country. The Silver  
State says he has sent samples of sugar  
beets raised on his ranch to the Agri-  
cultural Experiment Station at the Uni-  
versity for analysis. He believes  
that sugar beets raised on alkali soil  
contain a higher percentage of saccharine  
than those produced on other soils, and  
is making the experiment to satisfy  
himself on the point. There is a large  
area of productive land well adapted to  
beet culture in the vicinity of Golconda  
and if the analysis results satisfactory  
a sugar beet factory may be built near  
his ranch. Of course the sugar trust  
will discourage enterprises of this  
character as it will interfere with their  
profits, but if the test is satisfactory a  
sugar factory may be built without the  
assistance of the trusts. There is one  
in Utah which pays handsome divi-  
dends on the money invested and there  
is no known reason why Nevada can-  
not produce sugar beets and have them  
converted into sugar at a profit. Ex-  
periments at various places have proved  
that the rich soil of our agricultural  
valleys is well adapted to beet culture  
and the only advantage that Utah and  
Nebraska have over Nevada in produc-  
ing sugar from beets is cheaper fuel.

## "THAT STRAW VOTE."

A Statement From Mr. Clough on the  
Subject.

EDITOR JOURNAL.—I see the Gazette  
attempts to contradict the statement  
given you by me and published in the  
JOURNAL relative to the vote taken on  
the N-C-O. train last Tuesday. The  
facts are these: There were ten pas-  
sengers, including women and children,  
on the train when the vote was taken  
before we reached Chat. There were  
five men in the car and six of the pas-  
sengers were Mr. Bragg and his rela-  
tives. Mr. Bragg took the vote and  
the women and children expressed  
their choice and were counted for Mr.  
Kinley. The conductor's report will  
bear out my assertion that there were  
ten passengers.

health and strength and internal  
cleanness, which follows the use of  
Syrup of Figs, is unknown to the few  
who have not progressed beyond the  
old-time medicines and the cheap sub-  
stitutes sometimes offered but never ac-  
cepted by the well-informed.

## Viavi Is King.

Visitors to Reno, are cordially invited  
to call and investigate the merits of

## BREVITIES.

Mrs. Edwin Fowler of Wadsworth  
was committed to the Hospital for  
Mental Diseases yesterday. She has  
been ill for a long time, but there are  
hopes of her entire recovery.

Miss Iva Simpson has returned from  
Yellowstone Park where she spent  
some weeks viewing the wonders of  
that wonderful country. She is very  
much pleased with her trip.

There are more farmers and work-  
ingmen than members of trusts and  
combinations in the United States, and  
consequently more Bryan men than  
goldbugs in the United States.

The silver sentiment is spreading  
and if Bryan had time to address the  
people in all the Eastern cities and  
towns his majority in New England  
would be as great as in the South.

Farmer Peckham has brought in a  
potato of the peerless variety, which  
weighs three pounds and one ounce,  
from his ranch. It is among the largest  
specimens of the Murphy family  
produced in this latitude.

A. Nelson will sacrifice his stock of  
furnishing goods in order to make  
room for new goods. Now is the time  
to get bargains. Call at his store on  
Virginia street. Free employment

Frank L. Taylor, the coach for the  
University football team, is arranging  
for a concert to be given here by the  
Berkeley Glee Club. There are six-  
teen singers and as many instrumental-  
ists and a fine concert is promised.  
They will appear here on November  
28th.

Rosenthal & Armanco, news dealers,  
receive the latest San Francisco dailies  
by every train and deliver them to sub-  
scribers immediately. The price per  
week for each is 15 cents. The latest  
and full telegraphic reports are fur-  
nished. Stationery, novelties, cigars  
and tobacco constantly in stock.

Shall the gold syndicate, which has  
its principal heads in Europe and its  
agents in the principal cities of the  
United States, or the masses of the  
people rule the Government of the  
country? Those who prefer the rule  
of the syndicate will vote for McKin-  
ley, and those who, like Lincoln, prefer  
a Government by the people, will vote  
for Bryan.

"Broncho Jack," the cowboy  
preacher, entertained a large audience  
last evening on Virginia street. Dur-  
ing his talk he was interrupted several  
times and finally told the fellow that  
he had a little wife there that could  
slap his face in less than half a minute,  
and if she couldn't he could. He was  
asked who would be the next President  
and he replied Bryan, and added that  
he was for Bryan and Colorado.

## The Discovery Saved His Life.

M. G. Caillouette, Druggist, Beaverville,  
Ill., says: To Dr. King's New Dis-  
covery I owe my life. Was taken with  
La Grippe and tried all the physicians  
for miles about, but of no avail, and  
was given up and told I could not live.  
Having Dr. King's New Discovery in  
my store I sent for a bottle and began  
its use, and from the first dose began  
to get better, and after using three bot-  
tles was up, and about again. It is  
worth its weight in gold. We won't  
keep store or house without it." Get a

## Cure For Headache

As a remedy for all forms of head-  
ache, Electric Bitters has proved to be  
the very best. It effects a permanent  
cure and the most dreaded habitual  
sick headaches yield to its influence.  
We urge all who are afflicted to procure  
a bottle, and give this remedy a fair  
trial. In cases of habitual constipation  
Electric Bitters cures by giving the  
needed tone to the bowels, and few  
cases long resist the use of this medi-  
cine. Try it once. Large bottles only  
fifty cents at S. J. Hodgkinson's Drug  
Store.

## A Baseball Game.

A game of baseball will be played at  
the race track Sunday afternoon be-  
tween the Reno's and a picked nine. It  
is proposed to make it a lively game.  
There will be no charge for admission,  
but a collection will be taken up  
during the game to meet the necessary  
expenses.

## Equal Suffrage League.

The regular meeting of the Reno  
Equal Suffrage League will be held at  
the residence of Mrs. E. A. Orr on Sat-  
urday evening, October 18, 1896, at 7:30  
P. M. A full attendance is requested as  
the election of officers for the ensuing  
year will take place at that time.

## For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been  
used by millions of mothers for their children  
while teething. If disturbed at night and  
broken of your rest by a sick child suffering  
and crying with pain of cutting teeth, send  
at once and get a bottle of Mrs. Winslow's  
Soothing Syrup for children teething. It  
will relieve the poor little sufferer immedi-  
ately. Depend upon it mothers, there is no  
mistake about it. It cures Diarrhea, regu-  
lates the stomach and bowels, cures Wind  
Colic, softens the gums, reduces inflammation  
and gives Tonic and Energy to the whole sys-  
tem. Mrs. Winslow's Soothing Syrup for  
children teething is pleasant to the taste and  
is the prescription of one of the oldest and  
best female physicians and nurses in the  
United States. Price twenty-five cents a bot-  
tle. Sold by all druggists throughout the  
world. Be sure and ask for "Mrs. Winslow's  
Soothing Syrup."

James Hunt of Tulare, arrested for  
burning the barn of J. Osborn at  
Madera, California, confessed his guilt.  
This occasioned a row between Osborn  
and A. G. Daly of Tulare, in which  
Daly fired at Osborn. Daly was ar-  
rested for assault to commit murder.

# Can't Eat

This is the complaint of  
thousands at this season.  
They have no appetite; food  
does not relish and often fails to digest,  
causing severe suffering. Such people  
need the toning up of the stomach and  
digestive organs, which a course of Hood's  
Sarsaparilla will give them. It also puri-  
fies and enriches the blood, cures that dis-  
tress after eating and

## Internal Misery

Only a dyspeptic can know, creates an  
appetite, overcomes that tired feeling and  
builds up and sustains the whole physical  
system. It so promptly and effectively  
relieves dyspeptic symptoms and cures  
nervous headaches, that it seems to have  
almost "a magic touch."

## Distress After Eating.

"I have been troubled with indigestion  
for some time. After eating anything  
that was sweet I was sure to experience  
great difficulty and distress. Last fall I  
began taking Hood's Sarsaparilla and am  
glad to say that my stomach trouble has  
entirely disappeared. I can now eat a  
hearty meal of almost any kind of food  
and have no trouble afterwards. Hood's  
Sarsaparilla has also cured me of nervous  
spells." JOHN H. HONRIGHAUSEN,  
Wheatland, Iowa. Such cures prove that

# DELICIOUS RUSK.

How This Dry and Sweetened Bread Is  
Satisfactorily Made.

A dried rusk is a pastoral sort  
of bread, recalling the feasts of Phyllis and  
Corydon under the green trees, with  
plenty of berries and flowing bowls of  
milk. These dried breads date back to  
the earliest classic times, when for con-  
venience large quantities of bread were  
baked and prepared so that it would  
keep a long time.

German rusk is usually slightly sweet,  
but the time honored recipe here given  
is made without sugar and is especially  
delicious when served with a creamy  
glass of ice milk in summer. It may  
be eaten fresh, as it is an excellent dis-  
cuss.

Add half a cupful of butter to a pint  
of lukewarm milk. Sift enough bread  
flour, with a teaspoonful of salt, to make  
a batter about as stiff as you can stir it.  
Beat in half a cupful of homemade  
yeast or half a yeast cake, and finally  
add two eggs and beat the batter until  
it is in blisters. In summer it should  
not rise over eight or ten hours, accord-  
ing to the weather. In the morning add  
merely enough flour to roll out the  
dough. Let it rise two hours; then roll  
it out until it is a little less than half  
an inch thick. Cut it into small cakes  
and put one on top of the other until  
they are all paired, and let them rise  
for half an hour longer. At the end of  
this time bake them for about 30 min-  
utes in a quick oven. When they are  
cooled a little, separate the cakes and  
pile them loosely in a large dripping  
pan, with their soft side up. Set them  
in the closet under the oven, to become  
thoroughly dry, for a day or two and  
then hang them up in a bag in the  
kitchen near the range, to "cure," for  
three or four days longer. Where there  
is no range closet under the oven, the  
rusk may be put in the oven at night  
after the fire is covered and the drafts  
turned off and left till morning. These  
biscuits are better for keeping a week  
or even a fortnight. — Philadelphia

**A CORDON BLEU.**  
How the Title Was First Given to a Fine

Although the late Duc de Nemours  
had no pretensions to being an epicure,  
he was the last "Cordon Bleu" in  
France. We mean by this that he was  
the last survivor of the Chevaliers du  
St. Esprit. He was also of the last  
generation, that of 1839, when there were  
only two knights made, the Duc de Ne-  
mours and the Count de Lezoo. The  
Order of the St. Esprit was created in  
1578, was suppressed by the revolution  
and was revived by Louis XVIII in  
1804. To speak rightly, Louis XVIII  
considered that the order had never  
ceased to exist, for he had given two  
knights during his exile, in 1810, the  
one to Francis I, king of the two Sic-  
ilies, and the other to his brother, the  
prince of Salerno, the father of his  
brother's wife, the Duchess d'Anguile.

The ribbon of this order was a light  
blue color. It was worn around the  
neck in the reigns of Henry III and  
Henry IV, but was changed by Louis  
XIV, when it was worn across the chest.  
The Chevaliers of the St. Esprit wore  
always known under the name of Les  
Cordon Bleu, and this was the supreme  
honor during the monarchy of France.  
It was from this that the title of "cor-  
don bleu" was given to a first class  
cook. A gentleman one day declared,  
after a good meal, that he who had  
cooked the dinner had proved himself a  
"Cordon Bleu" among cooks—in other  
words, the master of his art. The title  
became quite the rage, and is now al-  
ways used to designate a good cook with-  
out the persons who use it knowing  
what it means or still less the origin of  
the title.—Exchange.

**The Waltz In Africa.**  
The dancers seen at Kambuddi's were  
Bisa and Louagou. There were four  
drummers and one old man with rattles,  
who gave a very picturesque perfor-  
mance. The drummers had small, barrel  
shaped drums, with tightened skin at  
either end. The drums were suspended  
by rope from the left shoulder. The  
drummers played to any crude, untrained  
songs in splendid time, and while play-  
ing and singing danced about most  
gracefully, some steps resembling close-  
ly the waltz. All wore long loin cloths  
of bark, reaching from the waist almost  
to the ground. They were wonderfully  
active, dancing and singing vigorously,  
whirling round on one leg and spurring  
the ground with the other foot. They  
sang, drummed and danced in perfect  
time. The old man had two rattles,  
each composed of five small, round,  
dried wild fruits with rattling seeds.  
These were threaded on beche-de-  
cane on thin sticks, one of which the old man  
held in each hand and kept time with  
the others, besides doing his share of  
the dancing.—From the Journals of the  
Late E. J. Glave in Century.

**A Thirty Story Building.**  
A 30 story office building is to be  
erected on Park row, New York city,  
on the site of the old International hotel  
and will be the tallest high rise build-  
ing in the city. There will be 27 main floors  
and 3 floors in the side towers, 30 floors  
in all. The foundations consist of piles  
driven into the sand, cut off below the  
water line and encased with concrete  
and masonry labor for the columns.  
The outer walls will be carried by girders,  
as in many other tall buildings of  
this character.—Engineering News.

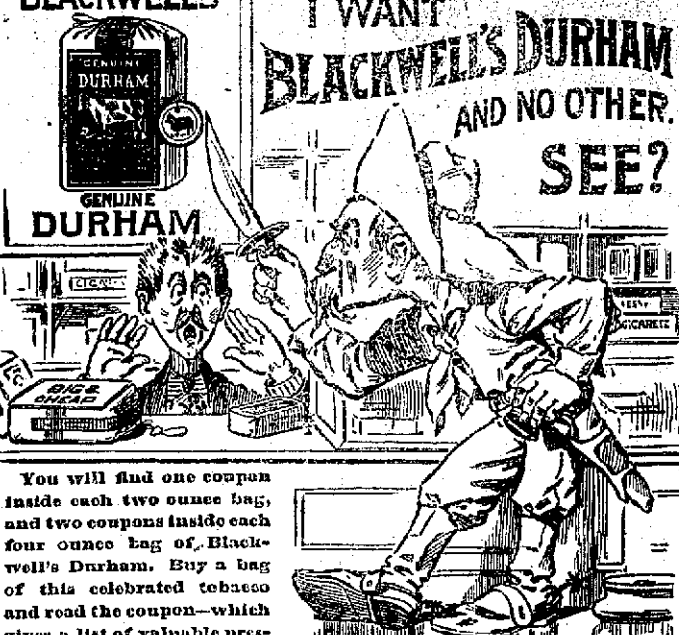

Most leaves contain some nourishing  
properties—in particular, those of the  
acacia tree. It would be quite possible  
to subsist on leaves if the supply were  
not stinted, and the shipwrecked mari-  
ner will keep in very fair condition if  
he chews them as he would his quid of  
"baccy."

**The Yellow Jacket.**  
The yellow jacket of the great Chi-

more of a vest than a jacket. It is made  
of rich yellow satin, has no sleeves, fits  
the wearer closely, and reaches a little  
below the waist. It does not fasten in  
front, but at the side, with small but-  
tons, and on the front is embroidered  
the royal dragon of China. Only five  
men in all the empire of China are en-  
titled to wear it, and you may guess our  
recent guest, the wise and kindly Li  
Hung Chang, enjoys his high privilege.

**NOTICE OF PROBATE OF WILL.**  
NOTICE IS HEREBY GIVEN THAT  
George H. Taylor has filed in the  
Office of the Clerk of the District Court,  
in and for the county of  
Washoe a petition praying that the last will  
and testament of Ellen Taylor, deceased, be  
admitted to probate, and that letters of ad-  
ministration with the will annexed in the  
matter of said estate do issue to him; that  
Saturday, the 24th day of October,  
1898,  
Has been fixed as the day for hearing said  
petition. All persons having or knowing  
any cause why said will should not be ad-  
mitted to probate and letters of administra-  
tion with the will annexed issued as prayed  
in said petition, should make the same  
known to the court at or before 10 o'clock  
A. M. of said 24th day of October, 1898, which  
is the hour on said day set for hearing the  
hearing of said petition. Should no objec-  
tion be made to the allowance of the prayer  
of said petition it will be allowed by the  
court and proper proof made at the hearing.  
By order of the Judge of said Court made  
on the 23rd day of September, 1898.
